

TOP-GRAIN LEATHER

The rich color and feel of premium leather bring sophistication to a room. An array of markings in top-grain leather make a piece special. Natural imperfections can darken or lighten depending on the color, to dramatic effect, highlighting the unique movement and character of each individual hide.

Care for Your Top-Grain Leather Upholstery

Our top-grain leather has been finished to highlight rather than hide natural markings. Each piece is unique. Preserve the character of this leather with these care essentials:

- > Buff regularly with a clean, dry cloth.
- > Do not use oils or leather cleaner. Avoid ammonia or other harsh cleaning products.
- > Address spills immediately by wiping with a damp, soft cloth.
- > Avoid harsh, direct sunlight.
- > Avoid direct contact between sharp objects and the leather.
- > For cleaning, call a leather professional.
