# Last Stool

The Last Stool is one of our most beloved and most enduring products. Designer Max Lamb set out to make the “last” stool—the most durable, most elemental, most functional, most definitive object. The stool is spun from a single sheet of metal, making it incredibly strong, and each has a wide indentation for easy lifting and movement. The Last Stool is for sitting—it works around every type of table and in every kind of interior—but consider it as a handsome occasional table, too. Choose between beautiful copper or brass, whose surface will elegantly patina over time; single-color enamel for an immediate chromatic punctuation mark; or a hand-splattered enamel finish, where each stool is unique.

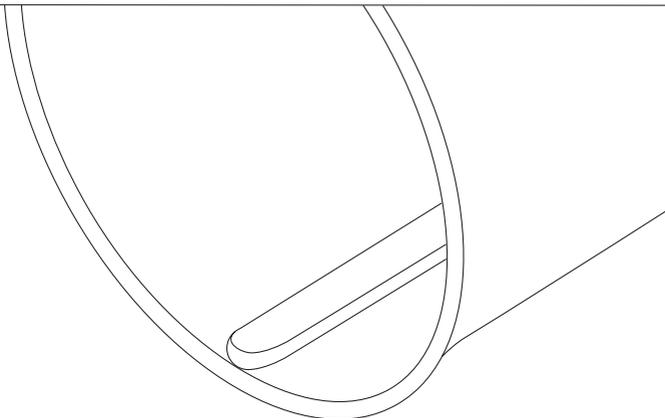

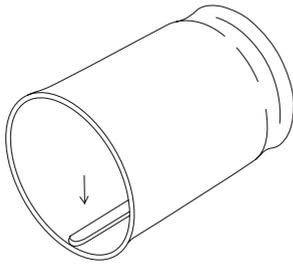

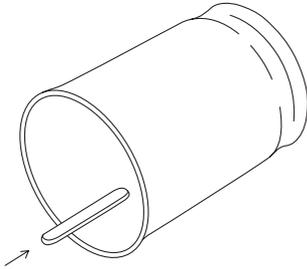

Parts	
	
Last Stool	5x Felt strip for stacking
	
1x Felt strip for floor protection	

**Step 1**

If you already have a last stool with felt strips, please jump to step 3.

Remove the tape from the first felt strip.

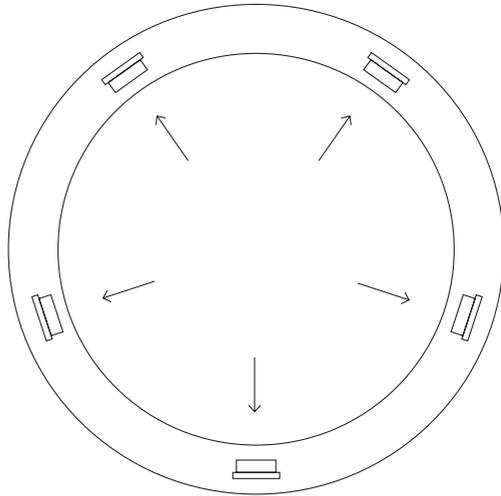

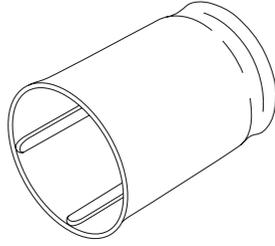

Attach the felt strip beginning at the edge of the radius.

**Step 2**

Repeat for the 4 other felt strips.

Distribute them evenly according to the image.

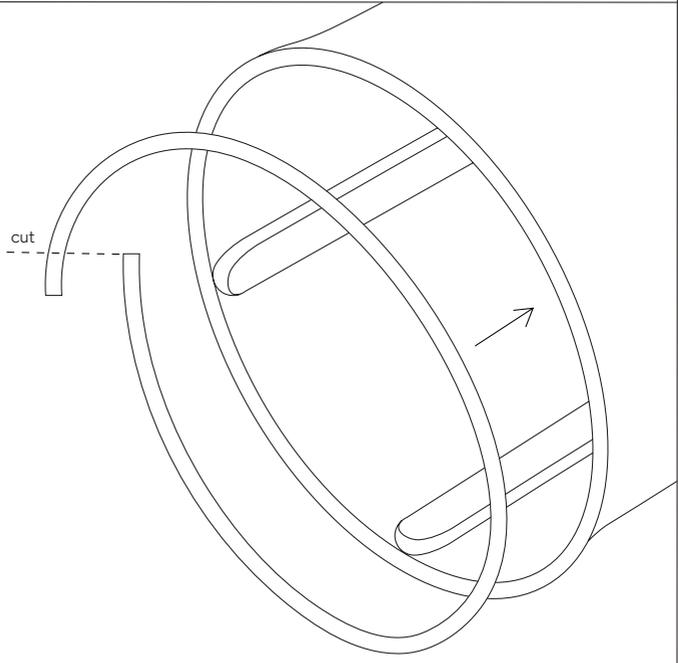

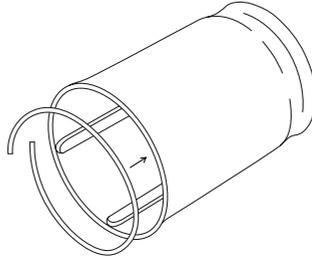

**Step 3**

Remove the tape from the long felt strip.

Attach it to the bottom of the stool, creating a circle along the bottom edge.

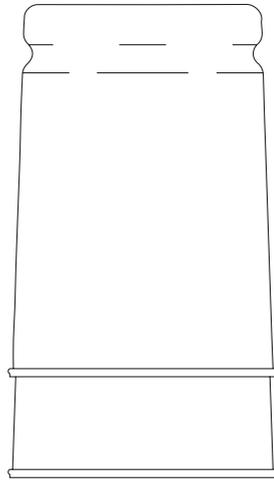

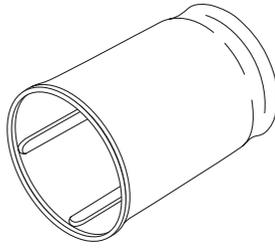

Cut the off the end of the strip to fit the ends together nicely in a full circle.

**Step 4**

Make sure all strips are well attached and you can now stack your Last stool.

Do not stack your last stools without attaching the felt strips.

Should you have any problems assembling your product, contact us at [info@hem.com](mailto:info@hem.com). We're always happy to help!

We have carefully selected the materials used in this product, and ask you to treat it responsibly too.  
Please recycle all packaging according to your local disposal rules.
