

Monster Rug

Care Instruction

Care instruction

Vacuum your rug using a low-powered vacuum cleaner without a beater brush. Shedding of loose fibers will occur with new rugs and is an inherent quality of this high pile rug. Use scissors to trim loose yarn to avoid unravelling.

We advise occasional combing of the rug with the included comb to give it an even look and to remove any loose fibers. Simply comb the fibers gently in different directions to keep the rug in good condition.

Occasional cleaning from a professional rug-cleaning company is recommended. Avoid harsh chemicals that could damage or fade your rug. Clean spills promptly by blotting with a clean, undyed cloth. Avoid direct and continuous exposure to sunlight and rotate rug periodically to promote even wear. Use of a rug pad is highly recommended.

With proper care, the high quality of Hem furniture can be maintained for years to come. If you want to learn more or have any questions about our care & maintainance recommendations, please write to info@hem.com.
